# Bioregion towards circular economy

Inese Suija - Markova

📅 Valmiermuiža. 28.02.2025

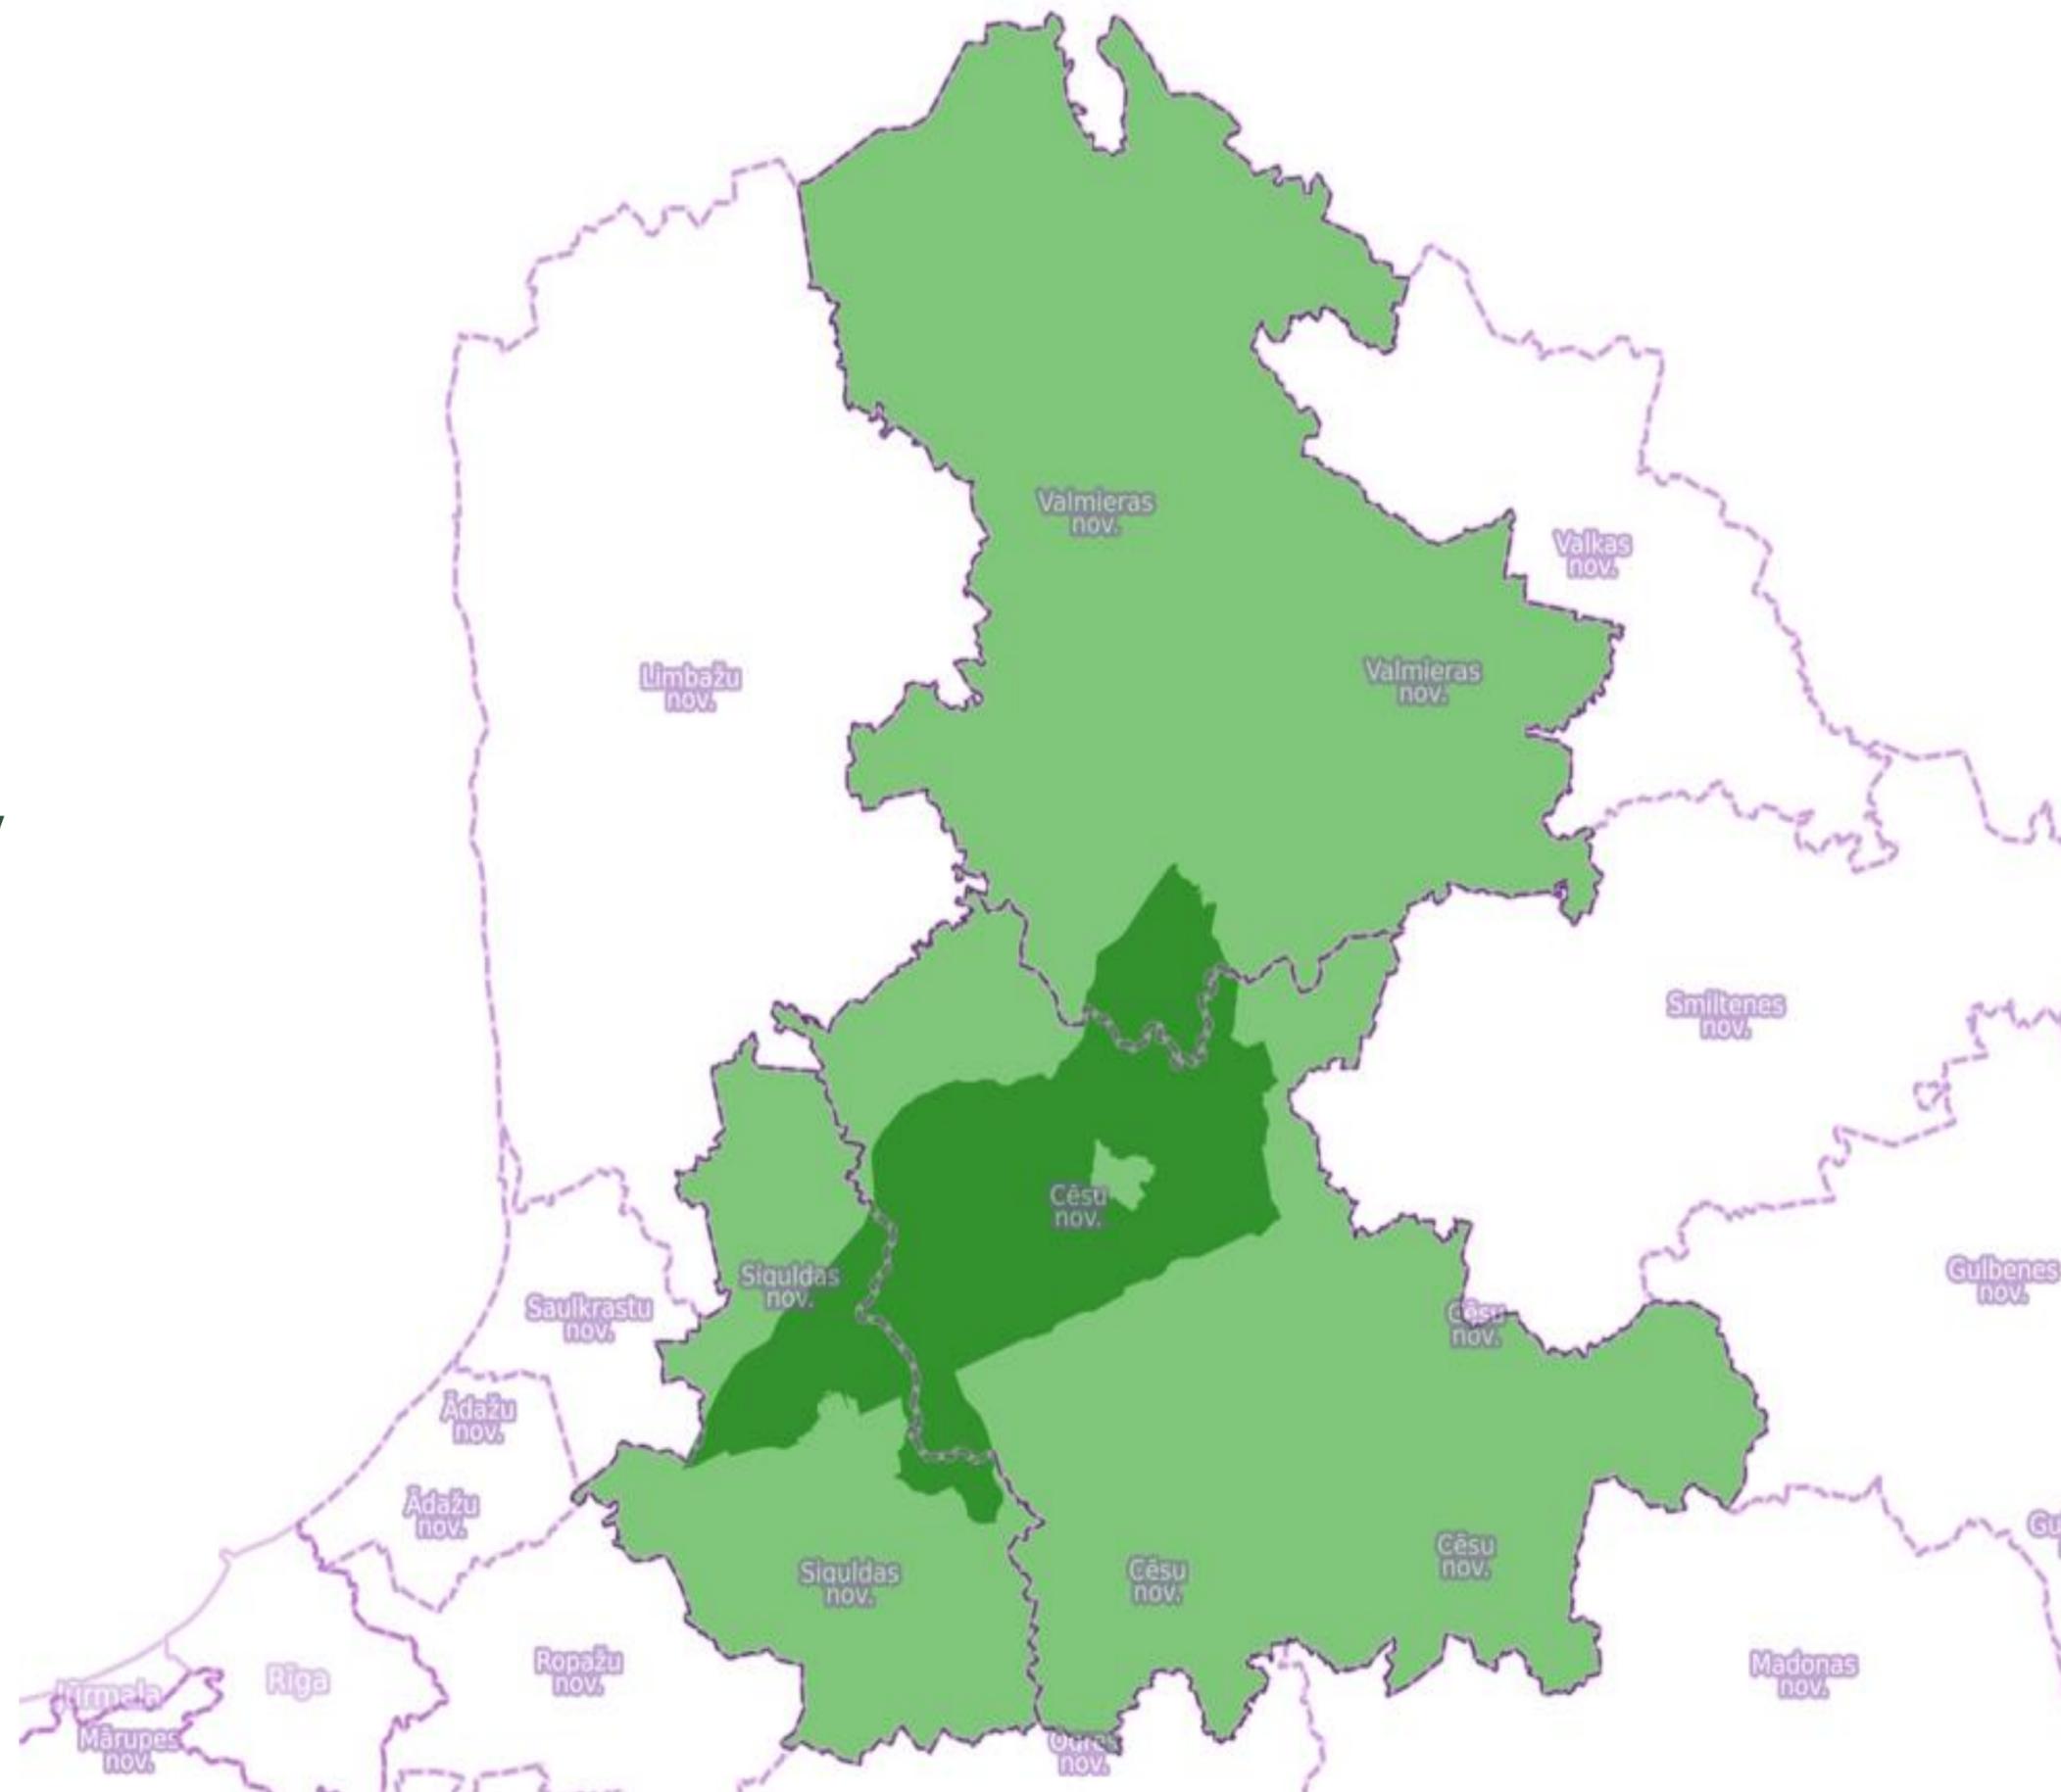

# Greenfest - BioGNP

# Geographic coverage

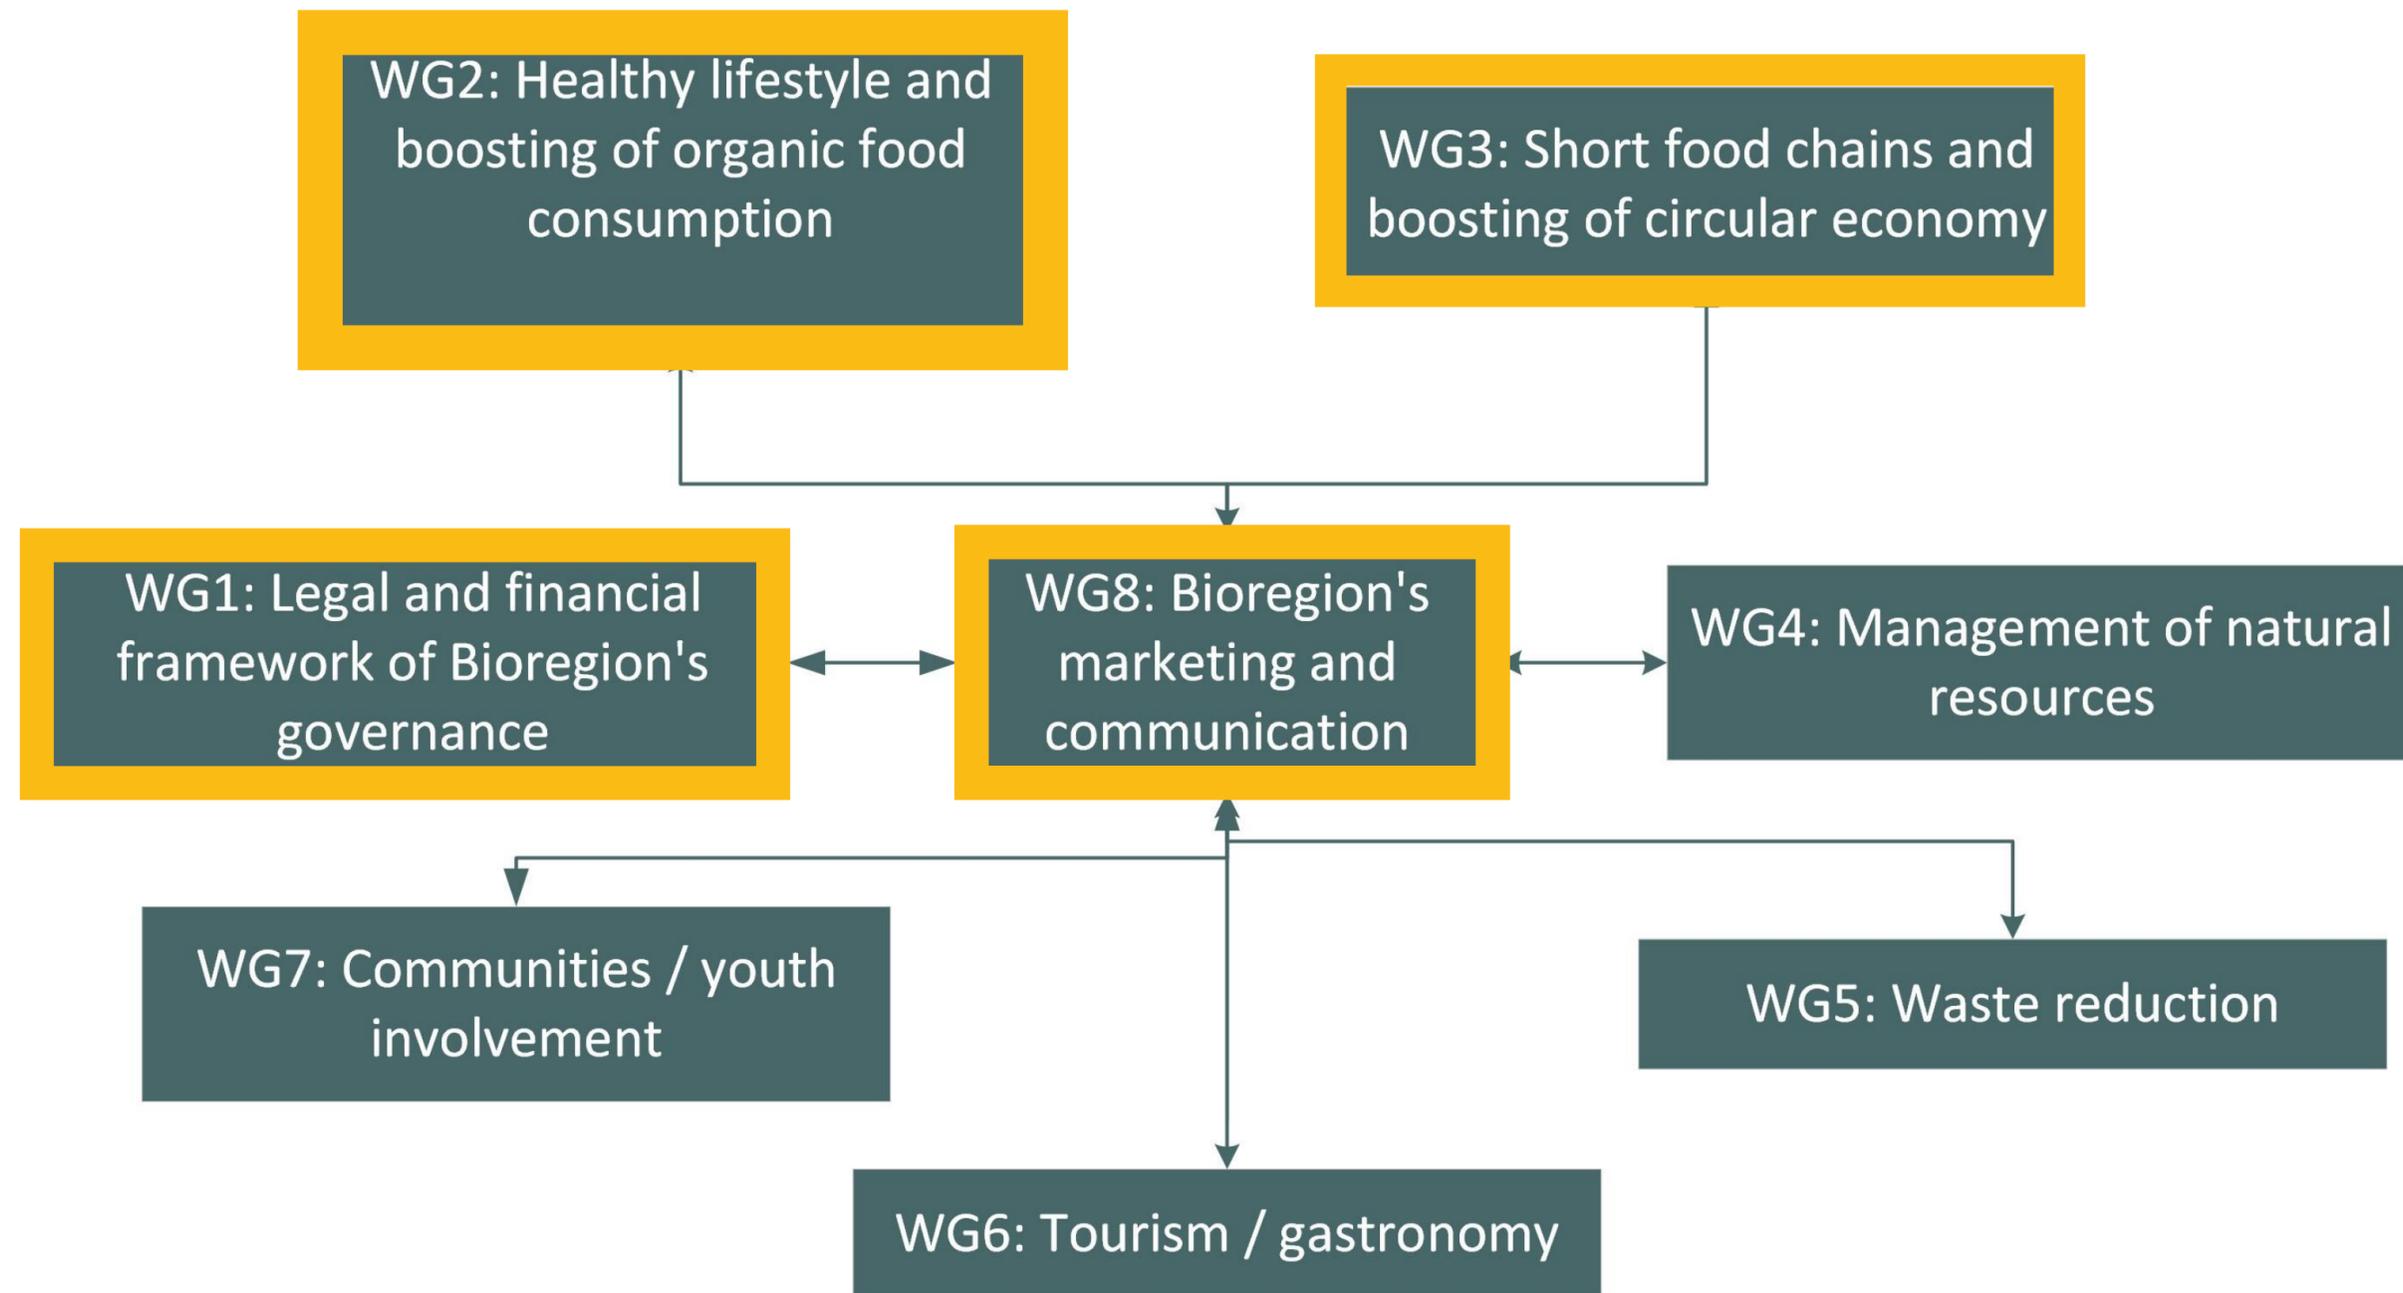

- Cēsis municipality
- Saulkrasti municipality
- Sigulda municipality
- Valmiera municipality

What to do next?

# How to organise work?

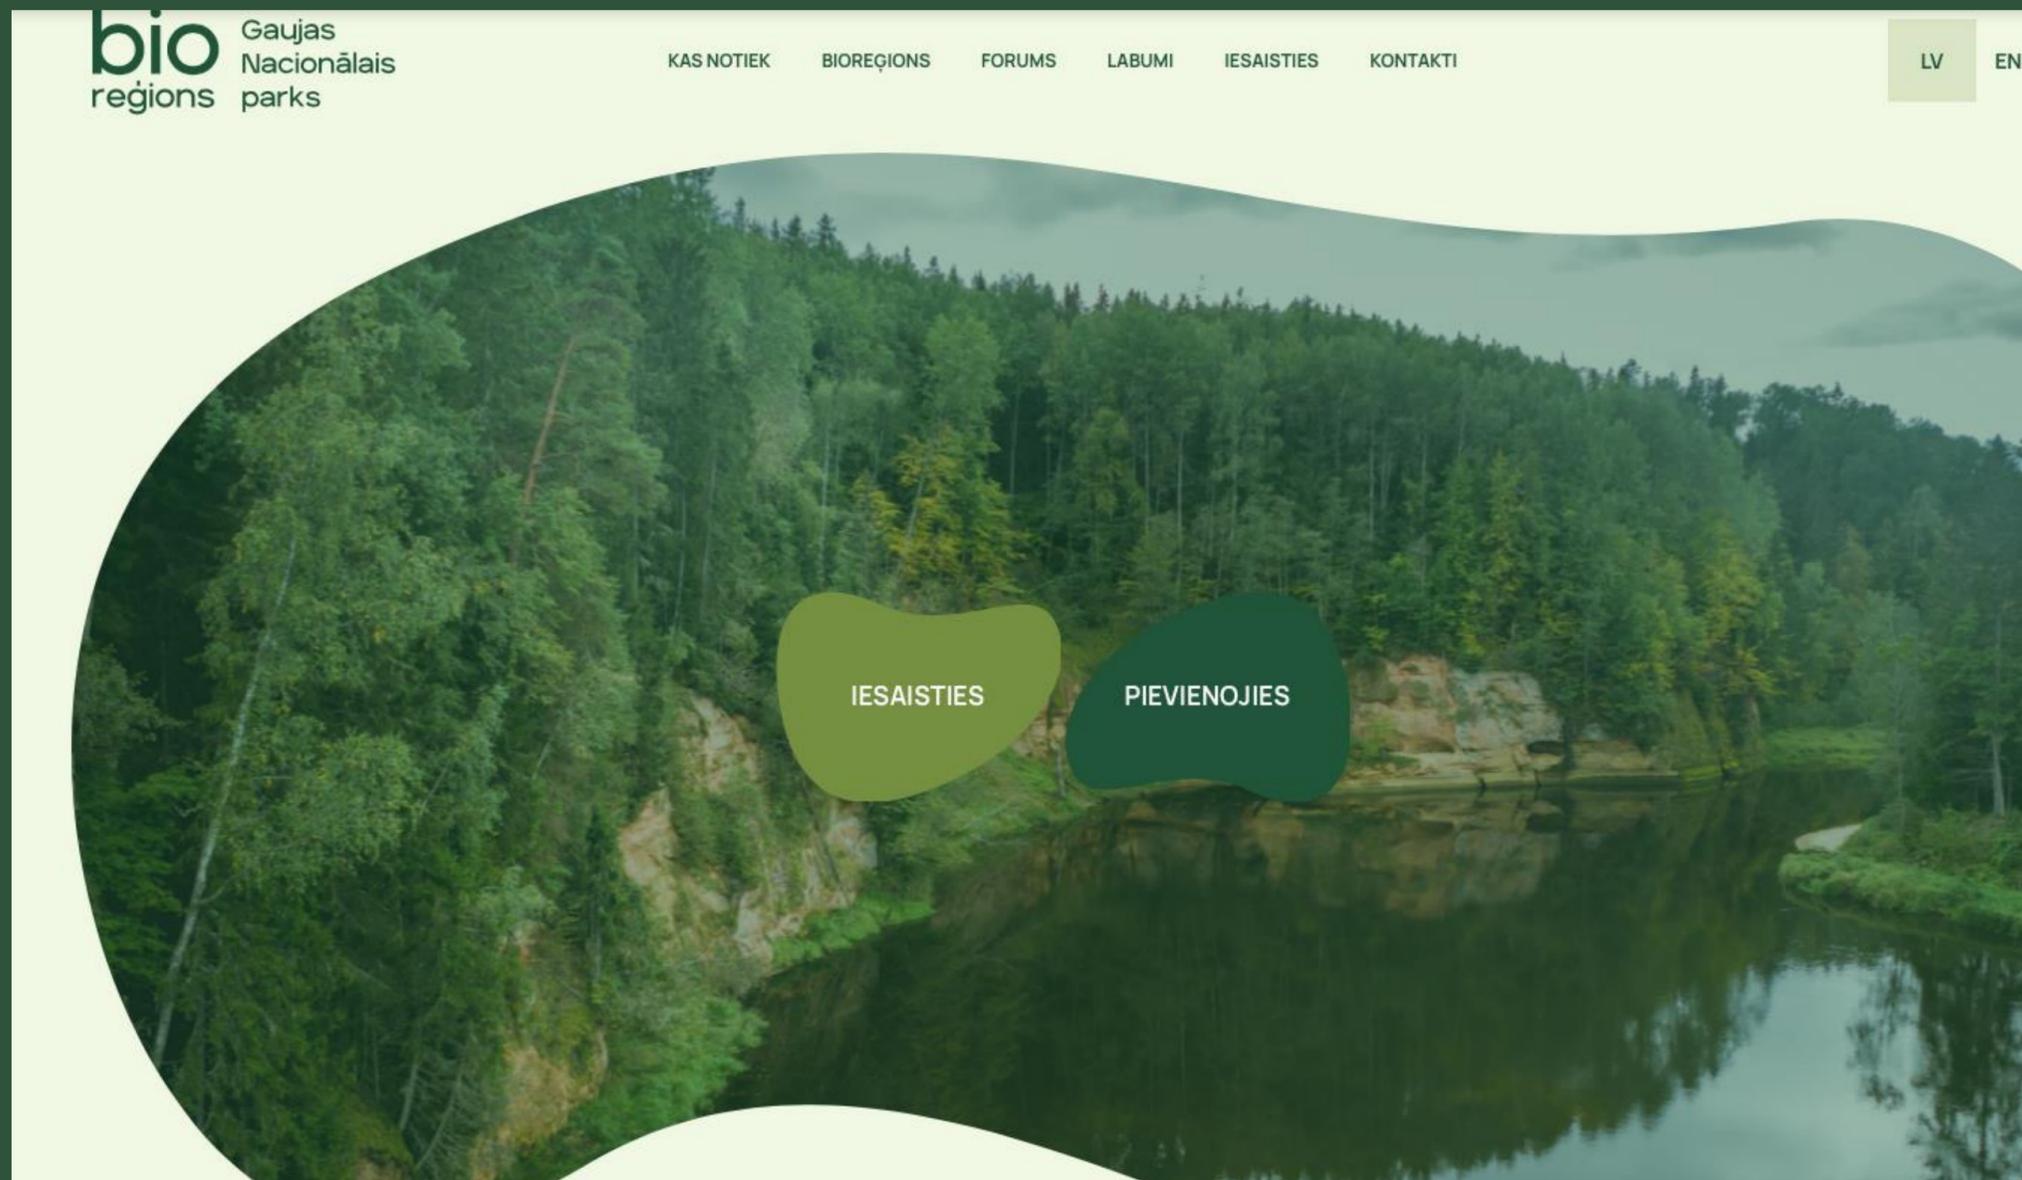

# Boosting organic food consumption

- Elaboration of guidelines for green procurement of school meals
- Pilot project in Cesis municipality - green procurement of school meals at Līgatne Young Leaders elementary school
- Various education and public awareness raising activities on organically produced food and its value

# Development of the Bioregion's website

[www.bioregions.lv](http://www.bioregions.lv)

# First steps towards circularity and industrial symbiosis

- Analysis of the resources of Cēsis municipality and opinion of local entrepreneurs regarding resource and waste flow in their companies
- Development of repair shop and circular economy centre in cooperation with SIA ZAAO
- Circular Economy Guide for Entrepreneur
- Circular economy center “Daibe”

# Long-term impact

- A clean, green environment that promotes physical and mental health
- Accessible organic and healthy food
- A desirable place to live – high quality of life, economic stability, and a socially inclusive environment
- A sought-after slow tourism destination
